# Common Sense

## About City Directory Circulation

•

**THE TRUE VALUE** of advertising circulation is **circulation consulted.**

**TO BE EXACT**—by actual survey in Canadian cities—for each City Directory, an average of three and one-half consultations were made for each business day.

**TO BE CONSERVATIVE** we will eliminate the sixty Sundays and Holidays when no tests were made.

**FOR EVERY THOUSAND DIRECTORIES** sold there will be an average of three and one-half daily consultations for each book for **three hundred and five days,** therefore—

$$1000 \times 3\tfrac{1}{2} \times 305 =$$

# 1,067,500

**Consultations or**
**Circulation Consulted**

# Please! Do Not Lend Your CITY DIRECTORY

●

## IT COSTS YOU MONEY
## Every Time It is Loaned

●

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the **Directory** of Your City.

**This cost must be absorbed by the subscribers—be they one—or be they 1000.**

If there were but **One Subscriber** to the **City Directory —the One Subscriber** would of necessity have to absorb **The Whole Cost.**

If there were **1000 Subscribers**—each one would **have to absorb 1/1000 Part of the Whole Cost.**

From which it is obvious that the **Greater** the number of subscribers—the **Lesser** the cost to each.

Every time you loan your City Directory the **Less Necessity there is for the Borrower to subscribe for the Service.**

**More Borrowers** result in **Fewer Subscribers,** which means **Increased Cost.**

**HENDERSON DIRECTORIES LTD.**

# Common Sense

## About City Directory Circulation

•

**THE TRUE VALUE** of advertising circulation is **circulation consulted.**

**TO BE EXACT**—by actual survey in Canadian cities—for each City Directory, an average of three and one-half consultations were made for each business day.

**TO BE CONSERVATIVE** we will eliminate the sixty Sundays and Holidays when no tests were made.

**FOR EVERY THOUSAND DIRECTORIES** sold there will be an average of three and one-half daily consultations for each book for **three hundred and five days,** therefore—

$$1000 \times 3\tfrac{1}{2} \times 305 =$$

**1,067,500**

**Consultations or**
**Circulation Consulted**
